They possess all the modern improvements which contribute to Health and comfort, as a superior system of lighting and ventilating, the best Provisions, and a careful medical superintendence.

The Captains have been carefully selected as first class sailors and men of humanity, and an experienced Surgeon is attached to each Ship, and no expense is spared to render this the best and most popular conveyance to America.

As Train & Co. have made large arrangements in Liverpool as will PROTECT their friends from the frauds and impositions sometimes practiced there, they believe that those who pre-pay passages cannot but see the advantage of being thus with a Respectable House, on favorable terms, for a well known Line of Magnificent Packet Ships, and in this way avoid the disrespect, annoyance and delay which they so often experience, when they engage with Agents who are but slightly connected with transient ships.

As a proof that their Immigration business is conducted on principles uniformly Honorable and Humane, and that they have been distinguished for the most exact fulfilment of all their engagements, we are permitted to refer to the very Rev. THOMAS MATHEW, Cork, Ireland.

We also subjoin the following testimonial from the Right Reverend JOHN BERNARD FITZPATRICK, D. D., Bishop, Cathedral, Boston.

EDITORIAL CORRESPONDENCE OF THE SENTINEL.

Madison, Feb. 1, '53.

I enclose a copy of the report of the Committee on Agriculture in the Senate, upon the petitions for the draining of Muskego lake. The provisions of the bill which accompanied the report will be understood from a perusal of the latter. The subject is one of much interest to a large portion of the people of Milwaukee, Racine and Waukesha counties, and is referred to the delegations from those counties.

The Senate occupied its session mostly in the passage of appropriation bills, a list of which I send by telegraph. The Assembly was also occupied in the same line for most of its morning session, but there were several items worthy of special note.

A bill was introduced, through Mr. Beecroft, to charter a railroad company, to be called the "Atlantic and Pacific R. R. Co." The corporators and the route will appear from the perusal of the following, being the first section of the bill:

M. H. Grinnell, D. Hoadley, Chas. Butler, A. C. Flagg, J. B. Jewis, Chas. Gould, E. C. Litchfield, D. S. Miller, Peter Cooper, and E. D. Morgan of the city of New York, Washington Hunt of Niagara Co., N. Y., Abbot Lawrence, John M. Forbes, and W. F. Weld of Boston, E. Corning, J. L. Schoolcraft, Joel Rathbone and R. H. King, of Albany, W. W. Corcoran, of Washington, John Stryker and B. S. Doty, of Rome, J. S. Wadsworth of Genesee, Russel Sage of Troy, J. K. Morehead and John Tucker of Pa., Dean Richmond of Buffalo, A. Kelly, David Todd and C. P. Wolcott of Ohio, John S. Barry of Michigan, J. Grinnell of New Bedford, J. E. Sheffield of New Haven, L. McLane of Baltimore, John Robb of New Orleans, H. L. Dousman, J. B. Martin, J. D. Doty and E. H. Brodhead of Wisconsin, W. B. Green, T. Dyer and W. S. Gurnee of Chicago, Jas. Guthrie of Ky., and M. G. Bright of Indiana, and such other persons as shall or may be associated with them for that purpose, are hereby created a body corporate and politic by the name, style and description of the Atlantic and Pacific Railroad Co., and said company, with the consent of the U. S. are hereby authorized and empowered to build, contract, complete and enjoy a continuous railroad with one or more tracks from the valley of the lakes, or the Mississippi river, or from the Gulf of Mexico, to San Francisco, or such other place on the Pacific Ocean, or Puget Sound, and on such route, as such company shall deem to be most advantageous to the public interest, &c.

The capital stock is $50,000,0000, with the privilege of doubling it. The following 17 persons are named as the Commissioners to open the books; Messrs. Grinnell, Corning, Schoolcraft, Richmond, Butler, Stryker, Flagg, Guild, Litchfield, Jervis, Doty, Dousman, Martin, Gurnee, Brodhead, Vinton, and Hunt. The bill is to be printed, and I will send you a copy of it.

In Senate, bills have been introduced authorizing the certificates of the U. S. Receivers and Registers to be recorded in the office of registers of deeds; and directing officers who seize personal property on execution to advertise the articles, with the names of the parties and other items, for one week, in some newspaper in the county, if there is one.

Mr. Hadley introduced the long-looked for bill authorizing the issue of $100,000 of bonds in our county for county buildings &c. Here follows a brief abstract of the sections:

Sec. 1st. Bonds not to bear more than 7 per cent interest, nor to run more than 20 or less than 10 years. The fund to be expended in purchase of ground, and erection of buildings.

Sec. 2d. Bonds to be signed by chairman and clerk of Supervisors—to be not less than $500 each, with interest payable annually on the 1st of May.

Sec. 3d. The Board of Supervisors to direct when, and in what amounts, the bonds shall issue. Also shall elect, *viva voce*, an agent to negotiate bonds, the agent to give security in twice the amount of bonds entrusted to him, and not to receive more than 1 per cent thereon.

Sec. 4th. Treasurer to give additional security. The fund not to be liable for other purposes—Treasurer not to have more than ½ per cent on the amount placed in his hands.

Sec. 5. The Board to elect, *viva voce*, three Commissioners to take charge of the work of the County buildings. No Supervisor, nor the Clerk, to be eligible as Agent or Commissioner, or to be a Contractor for the work. Each Commissioner to give a bond of $20,000.

Sec. 6. One of the Commissioners to be the Chairman, and to receive not more than $3 per day for each day employed; the others not more than $2 per day.

Sec. 7. The Commissioners to sign and make contracts, audit and certify accounts for work.—Checks on the Treasurer to be payable to the person in whose favor it is drawn.

Sec. 8. Commissioners to keep a record, open to inspection, and not to be interested in any contract.

Sec. 9. Commissioners to cause plans and estimates to be submitted to the Board of Supervisors.

Sec. 10. The Board to select the plan, and advertisement to be made for proposals for 4 weeks in all the papers of the county. Contracts to be subject to the supervision of the Board.

Sec. 11. The Agent, Commissioners, and Treasurer to make annual reports.

Sec. 12. Vacancies in Board of Commissioners to be filled by the Supervisors.

Sec. 13. Special tax authorized to provide for payment of interest, and ultimate payment of principal of bonds.

Sec. 14. The act not to go into effect till the 10th day of April, 1854.

Mr. Hadley moved the reference of the bill to the entire delegation from Milwaukee Co. Mr. Tobin moved to amend by confining the reference to the members from the town, but the motion did not prevail. Mr. T. said that the people of the towns wished to be set off from the city. It would not, in all probability, be a matter of much economy for *them*, to go off, and be obliged to erect county buildings for themselves.

A bill is introduced providing for the exemption of rail roads from taxation. It has merits in it. Our roads are, for the most part built with foreign capital, and it seems hard to burden them, as is done in some cases, with more than half of the entire taxation of a town. We ought not so to discourage investment in our railroad and other improvements.

The subject of the purchase of immense tracts of our school lands by speculators is attracting attention, and a bill will probably be introduced to put a stop to it. I am no advocate of "land limitation," but it does not seem right that individuals should thus monopolize and keep from settlers 50,000 acres of land at a time. It is said that nearly every acre of School lands in the north-western counties has thus been taken up. Some considerable quantity of lands must still be unsold, and it is to be hoped that something will be done to keep them open for settlers at the prescribed rates. Query, is it not bad policy to appraise all of these lands, in advance of any demand for them by actual settlers?

Thursday, Feb. 2, 9 A. M.—Col. Shaw had an opportunity of telling the Senators last evening the story of his wrongs. His memorial is before a select committee, who will probably report shortly.

The Senate bill repealing the small-bill law is indefinitely postponed. The House bill is before the Senate, which will doubtless strike from it the clause throwing the burden of proof upon the defendant, and send it back thus amended.

Good progress was made in the general file yesterday.

The weather has changed, the roads are frozen up, and there was another slight fall of snow last night. W. H. W.

☞ Loaded wagons were still crossing the Mississippi at St. Louis, on the ice, on Saturday last.

R. R. Rippers again at Work.

We are indebted to the House line for the following despatch:

Erie, Jan. 31.

The first train from Buffalo is just in. No obstruction at Harbor Creek. The city authorities tore up the track crossing Sassafras street a few rods west of the Depot, so no connection can be made with the western road. Large crowd of people, but no violence.

Of course the case for Executive interference is now made out. That is, *if* any reliance can be had upon the Administration.—*Cleveland Herald.*

A fatal *if*. Our "forcible-feeble" administration does not interest itself in the least in practical matters, unless they relate to the "peculiar institution." The recovery of a Fugitive Slave rouses all its energies and commands its prompt and undivided attention; but the interruption of the mails, the violation of law, the destruction of property, the resistance to Federal and State authorities, being all small affairs, are passed by as quite beneath its notice.

THE ROBERT WILLIS REPORTED SAFE.—We are permitted to make the following extract from a private letter dated

Buffalo, Jan. 28, 1854,

"A letter was received here yesterday by a man by the name of Clark, saying that the Indians who carry the Canada mail called on the writer of the letter at the request of John Clark and Sandy, who were known to have been on the Robt. Willis, and got him to write and say that his nephews John and Sandy, were well and would be down before long. Said the Willis and cargo were safe in Traverse Bay, on the Canada shore."

"It looks plausible from the fact that the man who wrote the letter could not have known the names of the crew of the *Willis*.

We take the above from the Chicago *Journal* of Thursday last, but hardly credit the story.—The Robert Willis, cleared from here in October last, loaded with grain for Buffalo, and was reported lost with all on board in the severe gale on the week following her departure.

THE PLOT TO ELECT A U. S. SENATOR.—The Ozaukee County *Times* (dem) says of the plot to steal a march upon the People, in the matter of choosing a United States Senator, "this move of aspiring politicians to elevate themselves to a higher station for the fear that the like favorable opportunity may not result from the reference of the subject to the people at the proper time, is the most outrageous attempt to defraud them of a right that has ever come under our notice."

The Monroe *Sentinel*, another Democratic paper, refers to the same nefarious scheme in this wise:

This is altogether unexpected to the people. Mr. Walker's term does not expire for near two years, and it was not expected that the election of his successor would take place until the next session of the Legislature.

PENSYLVANIA DEMOCRATS'—The *Pensylvanian* says that although Pensylvania has ever been the truest among the true, to the democracy, she has never yet had a nominee for President.

Well, this is no sign that she never will have. She has got a son that is growing to this position fast. That son is James Campbell, the present P. M. General.

No man has ever won so much fame in so short a time, as he has in the west.—*Chicago Democrat.*

It is joking you are, neighbor? If so, the jest is a sorry one—if earnest, still worse. In this part of the West Mr. CAMPBELL is looked upon as a very indifferent specimen of a P. M. General, and a poor apology for a Cabinet Minister. Yet he is not out of place in the PIERCE administration.

LUMBERING ABOUT GREEN BAY.—A correspondent of the Cleveland *Herald*, writing from Green Bay, under date of January 22d, says that the Lumbering operations this winter will be more than double those of any previous season. There are, according to his count, thirty-five saw-mills, located on streams emptying into the Bay and he adds the following statistics:

From the most reliable intelligence received, there will be sawed by these mills, water and steam, the present year, eighty millions of feet of pine lumber. At this time, there are 1500 men, 300 yokes of cattle, and 100 spans of horses getting out logs for these different establishments—quite an export when you include 10,000 bbls of fish for one year.

IMPORTANT SUIT DECIDED.—The great suit, involving the right of the Michigan Central Rail Road Company to build and use a railroad track from Michigan City to Chicago (contested by the Michigan Southern R. R. Company) was decided in the U. S. Supreme Court at Washington on Monday week. The decision is *adverse* to the exclusive claim set up by the Michigan Southern Company, the Supreme Court having dismissed (on the ground that it had no jurisdiction in the premises) the appeal taken by that Company from the decision of the Supreme Court of Indiana, denying their application for an injunction to restrain the Central R. R. Company from building and using their track round the head of Lake Michigan.

LA CROSSE AND MILWAUKEE R. R. COMPANY.—The Annual Election for Directors of the La Crosse and Milwaukee R. R. Company was held in the town of Fox Lake, on Wednesday last, and resulted in the choice of the following gentlemen (the old Board): W. DAWES, B. KILBOURN, J. LUDINGTON, F. HUEBSCHMAN, E. H. GOODRICH, E. D. CLINTON, S. L. ROSE, H. BARBER, MOSES M. STRONG, S. JUDD, JOSEPH KERR, H. MCFARLANE, S. T. SMITH.

At a subsequent meeting of the Board, Hon. STODDARD JUDD, of Dodge County, was unanimously re-elected President, JOSEPH KERR, Vice President, and E. D. CLINTON, Acting Director.

"THE WOLF UPON THE WALK."—The Cleveland *Herald* cautions the Western press and public against an accomplished swindler, JOSEPH DAVID HAITS, or HAAS, by name; professing to be a Bohemian clergyman, persecuted and exiled for opinion's sake, and soliciting money to aid in a publication on the Prophecies. He is well informed, speaks English fluently, has letters purporting to be signed by a Bishop and three Presbyters of Prague, and is especially ingenious in telling a good story and exciting public sympathy. He has been quite successful in obtaining money under these false pretences, at Baltimore, Cleveland, &c, and is supposed to be now on his way to the West.

PUTNAM FOR FEBRUARY.—We are indebted to the publishers for an early copy of this excellent periodical. It is rich in clever original articles.—Among them are: "Washington's Early Days," with illustrations; "Places of public amusement" in New York; "Boarding Schools," 'Annexation," "the Problem of the Lost Prince" (a strong article backing up our Wisconsin claimant to the French Crown) "Stage Coach Stories," and "Editorial notes." Putnam grows apace in ability, influence and circulation.

☞ The *Wisconsin* of this city, the Monroe *Sentinel* and Ozaukee *Times*, all democratic papers, are out against the Nebraska and Slavery bill of Mr. DOUGLAS and the administration. The Morning *News* sustains the measure. The Whig and Free Soil papers of the State, so far as we have noticed, are unanimous against it. Will not our Legislature speak out, promptly and decisively, on this question?

ILLINOIS AGAINST THE NEBRASKA BILL.—The Chicago Democratic *Press*, the ablest journal of the party in Illinois, in the course of a long article on Mr. Douglas' Nebraska Bill, says:

Meanwhile we wish to express the conviction that the people of Illinois are almost unanimous against the disturbance of either the Compromise of 1820 or that of 1850.

M. & M. RAIL-ROAD.—Notwithstanding the interruptions to the trains on the Milwaukee and Mississippi Rail-Road, by snow and ice, during the month just past, the traffic has been quite large and the earnings within a fraction of $22,000. They will be still larger this month.

ACCIDENT.—The Beaver Dam *Republican* mentions that Mr. JAMES REYNOLDS, living near Lounsbury's mill, was fatally injured last week, while engaged in sliding some timbers down hill to the mill.

☞ The new Locomotive, Palmyra, will be on the track this moring, and will be started in a day or two.

For the Daily Sentinel.

A House of Refuge.

Within a few days three more arrests have been made and two more committals have followed of juvenile criminals, both of those convicted not exceeding fourteen years of age each. As usual on occasions of this kind allusion is made by the Court, the District Attorney &c., to the want of a House of Refuge in our city. The readers of the *Sentinel* have frequently been apprised of this want. Appeals through its columns have been made to the members of the legislature, sent from our city—urging them to take some steps in the matter towards effecting its erection. In many cases of juvenile offenders we have become satisfied, that with a House of Refuge, instead of a Jail, reformation might be produced, as well as punishment inflicted. This remark is not idly made, but is based upon a close study of those *almost children*, who have committed petty offences, have been brought into the Police Court—to go through a trial—to be convicted—to be sent to a Jail—where by a law almost as certain as that of gravitation—they would come out more proficient in crime, than when they entered. In many cases we have been satisfied that the youth who sat upon the criminal chair near us, listening with wonder and horror, to the miserable jargon of a Police Court, hearing the scoffs and not unfrequently the inhuman remarks of the bystanders,—we have been satisfied, that in many of these instances, the punishment was unjust, for the reason, that the *child* had never been taught better, had never learned to know "right from wrong."—One of the Governors of Newgate (London) in giving his testimony before a commission, remarks: "The cases of juvenile offenders, from nine to thirteen years of age, arise partly from the difficulty of obtaining employment for children of those ages, partly from the want of power of superintendence of parents, who, being in employment themselves, have not the power to look after their children; and in a far greater proportion from the criminal neglect and example of parents." Cases of thefts &c. out of number, have been allowed to go unpunished in this city—nay, have never been allowed to come to the knowledge of the prosecuting officer, for fear the youthful offender should be sent to *Jail*, to associate with older criminals and to run the risk of coming out, *a confirmed* thief. In the work from which we have above quoted, the Governor of Coldbats Fields prison, remarks: "When a young thief is sent to prison for the first time, he either, by conversation and intercourse with more experienced thieves becomes fixed and determined in that pursuit; or, by the discipline experienced, dread and terror are impressed upon his youthful mind, and he is reclaimed. *If disposed* to follow the pursuits of thieving, by imprisonment he forms so many acquaintances that he is never afterwards at a loss for a companion; he becomes acquainted with thieves more versed in the art than himself, who direct his attention to more lucrative pursuits; his emulation is spurred, and each time his term of imprisonment expires he enters society with a fresh stock of knowledge, and consequently becomes its more dangerous member." The many cases of thefts &c. by boys that have occurred in our city, have not been confined to the poor and uneducated, as the public records will show, but have been committed by boys of all classes and some that have never been prosecuted, by girls of previous good standing in society. The remarks of the Police Justice and District Atty as published in yesterday's *Sentinel*; together with those we have quoted from two of the governors, of the perhaps largest jails in the world—the latter were given under oath and by men who had upwards of thirty years experience—are strong evidence of the need of such a building, in which proper punishment could be inflicted. All criminals were once young, once juvenile offenders, and conversations held with many, convince us, that *they* attribute *their* downward course in crime, to the lack of education and punishment combined, for their first offense. As our city increases in the number of its inhabitants, poverty will increase also, and all the other causes which tempt and induce boys and girls to commit crimes. We can already show a criminal calendar for murder, rape, arson, robbery, petty Larceny &c., equal to some states of far larger population and older in settlement. Milwaukee county sends the largest number to Waupun, most of which, indeed nearly all are sent from the city. Is it not the duty of the state to resort to all means compatible with humanity to prevent crime? If a House of Refuge was in existence, the groups of vagrant boys, that infest the corners of streets after dark, or disturb its quiet on the Sabbath, would and should be frequently committed to its interior; there to be taught as well as punished; to be turned out with an impression made on their minds that they had done wrong in disturbing the peace at any time. It would tend powerfully to prevent vagrancy and the various evils which follow in its course and its advantages would not only be felt now, but for many years to come, it would be a benefit to the city and county and a blessing to the community. We have done *our* duty, in again and for the last time, calling the attention of our legislature to this subject. Let them do theirs, and we shall be satisfied as well as the people of Milwaukee.

Notice of Books.

THE PRIEST AND HUGUENOT, or Persecution in the age of Louis XV. From the French of A. BENGENER, author of "the Preacher and the King, &c," 2 vol; GOULD & LINCOLN, Boston, publishers.

We are indebted to Messrs. A. WHITTEMORE & Co. for a copy of this interesting accession to that class of works which is becoming quite popular in these inquiring days, the fictitious, doctrinal books, intended to convey to the mind of the reader, in an attractive manner, the views of the writer. This pair of handsome volumes, like their predecessors named above, possess the additional recommendation that they are founded upon facts, attested by contemporaneous history. The writer, so the translator of his works informs us, is a minister of the Reformed Church of Geneva, who commenced, with his "Preacher and King," a series of volumes intended to illustrate the religious history of France, in a measure, from the time of Louis XIV down to the close of the last century. The book before us is written in a captivating style—much the same as that which formed for so many the charm of D. Aubigne's great works; and it presents us with a series of pictures, many of them of intense interest, of the times which followed the persecutions the "dragonnades"—succeeding the revocation of the Edict of Nantes. The book cannot fail to be a popular one, and the succeeding volumes, to be entitled *Voltaire and his Times*, will be eagerly looked for.

GLAD TIDINGS OF THE GOSPEL OF PEACE, or a series of Daily Meditations for Christain Disciples, by Rev. W. K. TWEEDIE, D. D. Free Tolbooth church, Edinburg. GOULD & LINCOLN, Boston, publishers.

Messrs. WHITTEMORE & Co. have also sent us this neat little volume. It is simply what its title imports, a series of meditations upon scripture texts, and the topics to which the mind is naturally directed by them, prepared and given to the public by an earnest minister of the Gospel.—There is no controversy, or attempt at controversy, and no desire to excite it, in any way, and the book will please quite a different set of readers from those who will eagerly purchase the one noticed above.

THE RAIL-ROAD CELEBRATION AT DETROIT.—This Festival cost the City Authorities of Detroit nearly $5,000, but the event celebrated (the completion of the Great Western Rail-Road) fully justified this expenditure. The Tribune says: "This seems a large sum, but a like occasion will not occur again, until the Oakland and Ottawa is opened, and then we can afford" *to let out a link*" —*all except the champagne.*"

FIRES IN GREEN COUNTY.—We learn from the Monroe *Sentinel* that the dwelling house of Mr Thos. CAMPBELL, of Clarno, with all the furniture, provisions, clothing &c., was destroyed by fire on the 24th ult. The family were absent at the time. No insurance. On the same day the School House in Sylvester, with the school books, Library &c., valued at $350, was entirely consumed.

OUR COUNTY BUILDINGS.—By reference to our Madison Correspondence it will be seen that Mr. PADLEY has introduced his bill for the issue of $100,000 of county bonds, to purchase the site and erect the necessary building, for a Court House, Jail, County and City Offices, &c. We approve entirely of the *object* of this bill, tho' not of all its details. The section, for instance, allowing a *per diem* to the Commissioners, should be struck out. If it is left in the bill, this office will be scrambled for, as offices usually are, and, in all probability, will fall into hands unfit, or unworthy to hold it. On the other hand, should there be *no* compensation attached to it, we do not at all doubt that three perfectly competent and responsible men may be found to undertake the duties of the office and discharge them faithfully and intelligently, for the city's sake and their own credit.

HUMBUG.—Judge Edmonds, in a recent lecture at Worcester, Massachusetts, stated that "mediums" had revealed a full and accurate account of the loss of the San Francisco, before the particulars were received by the arrival of the rescuers. —*Wisconsin.*

"Humbug" indeed, and an audacious one, at that. The pretended "revelation" was kept dark till the particulars of the *San Francisco's* loss were fully known. The "mediums" are growing "cunning." Some years ago, when the Collin's steamer *Atlantic* was missing for so many weeks, one or two "mediums" in this city, and elsewhere, gave "full and accurate accounts" of her loss. But she came out all right, nevertheless. If any "medium" in this city will tell us what the price of Breadstuffs is in Liverpool *to-day*, or what it was yesterday, or what it will be a fortnight hence, we will pay him, or her, a handsome reward, and agree to say nothing 'gainst the "Rappings," or "Rappers," for some time to come.

THE GREAT WESTERN RAIL ROAD.—We learn from the Detroit papers that the Great Western Rail Road is already doing a very large business transporting passengers and freight. On Wednesday morning 250 passengers started East by that route for Detroit, 170 of whom came from the West in the night train from Chicago. Produce is rapidly accumulating at Detroit, destined to go East over this road.

FIRE AND LOSS OF LIFE.—The dwelling of Mr. Jarvis Parker, at Oakland, Michigan, was destroyed by fire on the evening of the 22nd instant, and three of his children perished in the flames. The parents were out visiting at the time.

☞ The Pennsylvania Temperance Hotel is about to be removed, to give place for a brick building in its stead.

Thirty-Third Congress—First Sessio .

Washington, Feb. 1.

SENATE—The Nebraska bill coming up and Mr. Chase having the floor, he asked the indulgence of the Senate for a postponement until Friday, as he had been unable to examine certain historical points alluded to by Senator Douglas yesterday.

After some debate, in which Douglas and Weller strongly opposed any postponement, the Senate postponed action on the bill. After other unimportant business the Senate adjourned.

HOUSE—The act granting alternate sections of land in Wisconsin for Railroad purposes was passed.

Mr Olds reported a bill to secure the safe transmission of the U. S. Mails on Railroads, in view of the Erie difficulties. It provides that any person who shall hinder or instigate hindering or obstructing trains on any Railroad, shall be fined not less than $100, and imprisoned at the discretion of the court. Referred to Committee of the whole.

The House then took up in Committee of the whole deficiency bill.

After various amendments for Custom House at Cincinnati, the Com rose.

House adjourned.

Millville, Wis., Jan. 23.

MR. EDITOR: I write to inform you that I have been under arrest for the last hour, and will depart for Mineral Point in about ten minutes, for having cut wood on Government land for "*domestic purposes.*"

You'll hear from me again.

Police Court, Feb. 3.

A warrant was issued against John Keuster on complaint of Stephen Dentzer, charging him with threatening to commit an offence against the person of complainant. The defendant was arrested by deputy sheriff Seifert, and brought into court. The defendant entered into bonds to keep the peace for three months, in the sum of two hundred dollars; deputy sheriff Wedemeyer becoming his security. From the appearance of the parties and their conduct in court, we were led to believe that the trouble and breach of the peace would be as likely to come from the complainant as the defendant, the officer who became his bail, doubtless took this view of the matter.

CHARGE OF STEALING SHIRTS—A NEW POINT RAISED, &c.—HENRY B. Hubbard was brought down by officer McCollum, for trial, on a charge of stealing some shirts &c., the property of Christian Olson and others. The first witness sworn stated, that he lived on the point, and that about the 12th of January, the property was stolen, the complaint alleged it to be on the first. A question was raised as to whether a conviction could follow, the act having been proved to have been committed subsequent to the day stated in the complaint. A considerable discussion took place between defendant's counsel and the district atty. A new complaint was drawn and sworn to, after a *nol pros* had been entered on the 2d Febv. Defts counsel, Mr. Paine, claimed that the court in this case, was invested with the same functions as a jury; the state had brought a charge against the deft—an issue had been formed—a plea of not guilty had been interposed—testimony had been gone into, and claimed that the court must give a verdict, he submitted these remarks to the good sense of the court. Mr. Butler contended that the question could not be raised at that time—they had not shown that the act was the specific act charged on the complaint, but was willing to admit that he was not clear on the point. Court—"I've had almost every question before me that could be raised in a police Court but this is a novel question and I believe it has never come up before. I don't think I could settle it satisfactorily without consulting the authorities. The case was then adjourned to give time to the court and the district atty, and by consent of deft's counsel till 2 P. M.

At 2 o'clock the matter again came up, and resulted in the finding the deft not guilty in the first complaint, and a *nol pros* was entered by the district att'y as to the second.

(The reason of the defect in the date of the complaint was, that as in every other case a prosecuting officer or a court can only date a complaint upon the information he derives from the complainant. If *he* gives the wrong time to the district attorney he cannot wonder at the defendant being discharged. The time was set down in the complaint as stated to the district attorney, and it was proved by a witness to have taken place at a subsequent time.)

A boy named Simon Tehan was examined on a charge of stealing $5,00, and held to bail in the sum of $150. The bail was given and defendant discharged.

THE WEATHER.—Yesterday was the perfection of winter weather; brilliant sunshine, cloudless sky, pure atmosphere, and steady, tho' not severe cold. The sleighing continues good for cutters and the wheeling excellent. Produce arrives freely in our city; some 15,000 bushels of grain and 12 to 1500 hogs having come in yesterday. Prices keep up well and competition is active.

The Next Crop.

The inducements held out to farmers to plant a large spring crop were never more flattering than at the present time. Wheat is higher this day than ever known before in New-York, and so of all other grain. And these large prices are not entirely the result of speculation, based upon European war news. Independent of the war demand, there is a scarcity of breadstuffs abroad, which has already drawn off the surplus of our crops, until the price is affected by the natural law of demand and supply. The supply having become exhausted, and the great American granary, in a measure emptied, the world calls upon the farmers to refill it. There is another demand for grain besides the foreign one, which will prevent prices from receding below the paying point for several years to come, and that is for the immense number of hands employed in building railroads. These works cannot be suddenly stopped, no matter what the pressure may be upon the money or grain market, because to stop them would be ruin to the capitalists. When a current once forms a channel, it is difficult to turn its course. The products of the American farmer have lately fallen into a channel, where the current of trade is sweeping them onward to marts before unknown, producing prices before unthought of. We therefore counsel our country friends to prepare for a great spring crop. Let them sow all the oats they can get into the ground in good order, in proper season: then plant corn upon every acre in good condition which can be devoted to that crop. Let them also sow buckwheat, turnips, and corn for fodder, so that they can sell a large portion of all the grain produced.

At the West and particularly in Southern Michigan, Northern Indiana and Illinois, spring wheat is more extensively sown than the winter variety. Farmers in that region should not neglect the present opportunity to make a paying crop of this grain. Spring wheat sown early, rarely fails upon a prairie farm, where winter wheat is very uncertain. If possible it should be sown in February at the very latest. March should not pass before this crop is put in, even if it is necessary to wade over shoes in mud to do it. We have seen forty-five bushels per acre of spring wheat, though the usual crop is far below that, mainly owing to the very bad treatment it receives at the hands of the farmer.

Beans and peas, it will be seen, are quoted at $1,50 to $2,50 per bushel. Both of these are spring crops, and may be grown with profit upon almost any farm in the country. Lastly, look at the price of potatoes, which are now selling for $3,50 per barrel—more per bushel than corn, and more than wheat in ordinary years. With grain high, as it certainly will be next season, potatoes will continue to sell at high rates after the next crop comes to perfection. Farmers should make a note of this in time for spring operations. Let them plant largely. The crop will be a paying one. We add, that they should not plant or sow anything, especially in any part of the Eastern States, without manure. If a farmer has not enough upon his own farm, let him buy guano, super-phosphate of lime, ground bones, salt nitrate, of soda, poudrette, or some of the concentrated fertilizers which are sold now as commonly as the seeds to be planted.—*N. Y. Tribune.*

A GOOSE THAT WAS A GOOSE.—The following is from one of Willis's letters from "Idlewild."

"But I had a laugh at a goose, yesterday,—with a lesson in it too. Coming home, towards evening, with my wagon full of children, the air over our head was suddenly darkened by the wings of a very big bird—my neighbor's fattest waddler, who, chased by a dog, had concluded to up feathers, fly over the barn, and take refuge in the ever reliable and long-tried bosom of the river. But it was the day after the first sharp frost, and the stream, though as clear as a crystal, was of icy smoothness, and as impenetrable as a rock. Down came the goose, with full faith in it for long-tried water—and the way she slid over, and brought up at the frozen bank opposite, after that heavy bump upon her astonished egg-basket, was boundlessly delightful to the children. Besides the instruction in it, as to a Winter trial of Summer friends, it was a comfort with a pleasant spite in it to have one good laugh at a goose that waddles and screams after me, every time I trot past my neighbor's house."

LARGE LOADS.—The passenger trains on the Great Western Railway are carrying heavy loads. About three hundred persons went over the river yesterday morning, for the purpose of taking the train for the east.—*Detroit Free Press, Feb: 1st.*

THE NIGHT SIDE OF DYE.

(From the German of Heinrich Hinkletammer.)

Midnight veiled the heavens with infinite blackness as Hans von Rosenbaum stepped from the orgied halls of the Kinkel Lager Hans Zum Saus und Braus. The foam of the beer still dashed his wild beard, and the murmur of the evening breeze mingled in his soul with the memories of cries for "another preizel!" and "spring in de Lager!" and the thrilling of harps and pianos—for it had been concert night.

"Kat a ri-na!" he cried from the bottom of his heard and voice—Kat-a-ri-na!—Komm heraus!" The breeze sighed in the vine leaves—the waves rippled—all was still.

Once more in agony rose that cry—"Kat-a-rina!"

Deep from the recesses of the second story window murmured an answer.

"*Nix komm heraus!*"

"Vot—not *vont* kom out!" roared Hans, in all the grief of rejected love. "Deu you goes mit der teufel and be dondered! Gotsbimmelkreuzbackeschwernoth."

A brick flew from his hand, skimmed through the misty air—there was the jingle of broken glass—a cry in female Dutch—and—all was silent.

Still wanderers in dark midnight the spectral form of Hans Von Rosenbaum around the dwelling, still rings from the window the ghostly cry of *vat komm heraus*, still wings its way on the night wind a phantom brick bat—still the benighted traveler hears at last a dismal yell in Dutch. All things in heaven and on earth are re-echoed and reflected in their ghosts or in their shadow.

STEAM ELEVATORS.—We took a look on Saturday at the new steam engine of Mr. Tuckerman. This engine is of six horse power, and was built by Russel Skinner, of this city. As a piece of mechanism it is very neat, compact, and handy: it is furnished with all the new improvements, and reflects the utmost credit on the skill of the maker. Gentlemen from Milwaukee, Waukegan and Chicago, who are interested in the warehouse business, bear witness to its value and convenience and intend ordering one like it. Tuckerman is doing a good business, keeps his engine busy, and entertains his friends in that *bon homme* style which makes them easy and at home. There are two other warehouses which find business for steam engines viz: Messrs. Lathrop, and Dutton & Raymonds Our warehousemen are all doing an excellent business, some of them making piles. Success to industry and enterprise. —*Racine Advocate.*

To a Bargain a Bargain!

When it was proposed to admit Missouri into the Union as a Slave State, the People, with great earnestness and unanimity, remonstrated. There were then no Anti-Slavery, Abolition, or Free Soil Parties. But a sober sentiment, drawn from the writings of Washington, Jefferson, Chief Justice Marshall, and other Fathers of the Republic, in favor of confining Slavery to its Constitutional boundaries, pervaded the Nation. Slavery had been, and was being abolished in States where it formerly existed. The idea of extending it so far South and West as Missouri, awakened opposition that spread and strengthened to a degree which, as on other occasions, caused solicitude for the safety of the Union.

A Compromise of the question, after prolonged and exciting Debates in Congress, was suggested and carried through. Missouri was admitted, with Slavery, but under a solemn compact which forever prohibited Slavery in all Territory obtained from France, lying North of a prescribed line. In other words the Territory obtained from France was divided, all South of the line referred to being surrendered to Slavery has quietly enjoyed its share of the consideration for thirty-four years.

But now, when the Wilderness portion of that Territory is beginning to be inhabited, and embryo States are in view, it is proposed to invade and violate the rights of Freedom! The question presented, therefore is whether faith shall be preserved, or whether solemn compacts shall be disregarded?

In all the conflicts between Slavery and Freedom, from the Compromise of 1821 to that of 1850, Freedom has yielded most. Indeed Freedom has yielded all that Slavery demanded. It was in reference to the Missouri Compromise that John Randolph insulted Freedom by saying that the measure had been carried by "Northern Dough-Faces," and that if more votes had been wanting they could have been had.

It is but a few months since the first and highest duty enjoined, in view of the safety of the Union, was the avoidance of "Slavery Agitation." Every body was required to "acquiesce" in the Compromise. And we have "acquiesced." There was no mode of "Agitation" in the North. But after a brief season of repose the whole question is reopened by a Compromise Senator, and his "firebrand" has the sanction of the Administration!—*Alb. Journal.*

PROSPECTUS OF
Thos. H. Benton's Great Work.

THIRTY YEARS' VIEW of the workings of the American Government. Published by D. Appleton & Co., New York, and sold exclusively by subscription.

During the last thirty years there has been no important public measure, or public man, and distinguished statesman has not taken an able and decisive part, and been familiar with the influences, whether secret or public, which have urged forward or opposed each. He is therefore well qualified to write the history of this period.

This work will be completed in two volumes, the first of which will be published early in the year 1854, and will be brought down to the close of the administration of Gen. Jackson, and will thus form a complete work by itself, containing about 700 double columns, royal 8 vo. pages, and a superbly engraved portrait of Senator Benton.

Price $2,50, in sheep, or in library of the book.

The book of subscription, to which will be given specimen sheets, can be found at the law office of Messrs. TUCKER & GARVEY; and the Agent will soon give an opportunity to persons desirous of subscribing to do so at their residences and places of business throughout the city and county.

PREPARED BY

BANGOR, MAINE.

Proof Positive—Skeptics Read.—Testimony! Testimony!!

HAMDEN, Feb. 24, 1846.

MESSRS. J. CURTIS, JR., & CO.—GENTLEMEN,

I have a word to say to you, in favor of Hunter's Cough Syrup. I have the past year used in my practice, two dozen bottles of it, which I had of you, and every bottle has done good. For eight years past, I have been in the practice of Medicine, and I never have found any thing, as well calculated to operate as favorably in all diseases of the lungs as that is. I have known a hard, distressing cough, cured in forty-eight hours, by using (in broken doses) one bottle of it. One case here in question, of a man who was thought to have a seated consumption, troubled with a hard distressing cough. I let him have one bottle, and he had two more of your Agent, Mr. Whitmore. After using the 3 bottles, he has become well, and labors every day. He told me lately, that Hunter's Cough Syrup was the means and only means of his cure. I have given it to infants, to children, to adults, and have the pleasure to inform you that it has done good in every case. I shall do all in my power to recommend it in the cases above named, not wholly for your benefit, but for the benefit of suffering humanity.

Their power over the above diseases has not been excelled, if equalled, by any other preparation in the United States, as the cures attest, in many cases after skillful physicians had failed.

These Bitters are worthy the attention of invalids. Possessing great virtues in the rectification of diseases of the Liver and lesser glands, exercising the most searching powers in weakness and affections of the digestive organs, they are withal safe, certain and pleasant.
